

You haven't seen "Air Rage" yet, but with the most annoying people on earth yakking endlessly about stupid matters right next to you, you will not only see "Air Rage", but many like me will just quit flying and take other means of transportation. I'll easily pay \$5.00 per gallon to drive my car in peace and quite. Don't even think about allowing those idiots to talk on an airplane. We don't allow cell phones in movies do we?? People want to be left alone when they are cramped. JUST DON'T DO IT!!!
